

## New York Dimensional Flagstone

### *Product and Description*

#### **Description**

New York Dimensional Bluestone/Flagstone is a natural cleft sandstone used for patios, walkways and flooring. Strong and durable, it is available in a natural irregular shaped flagging or sawed in dimensional tiles. Bluestone takes its name from the deep blue color of the original stone layers quarried. Bluestone is not limited to just the blue color, but is a mixture of a variety of colors including green, gray, reddish brown and lilac with striations of gold, purple and brown.

#### **Standard Sizes**

12" x 12", 12" x 18", 12" x 24", 12" x 30", 12" x 36", 18" x 18", 18" x 24", 18" x 30", 18" x 36", 24" x 24", 24" x 30", 24" x 36". Additional larger sizes are available up to 48" x 48". The stone is cut .5" undersize to allow for a joint.

#### **Standard Size Tolerance**

Tolerance is +/- .25 inch. This tolerance range is incremental. There may be times when the tolerance is slightly less or slightly more. Due to the fact that nature determines its thickness, stone .75" to 1.25" are considered 1" stone, and stones 1.25" to 2" are considered 1.5" stone. Larger sizes are available for an additional charge.

#### **Selling Unit**

New York Dimensional Bluestone/Flagstone is sold by the square foot.

#### **Application**

Flagstone is ideal for patios, walks, pool decking, and flooring.

**Full Color Range**

Simply means that the stone is palletized as it is naturally produced in the quarry. Materials are relatively consistent in color, but please be aware that Flagstone is a natural product and subtle color variations do occur. The full color range most often includes shades of gray and gray-green with some blue, tan, brown and gun-metal mixed in. Our New York Flagstone is considered Grade A quality.

**Natural Cleft**

Natural Cleft is a term that means the stone is split with a hammer and chiseled to thickness after the initial cutting process. Natural cleft stone shows it's natural surface characteristics. This means the flagstone may contain subtle variations and fluctuations in face reveal and appearance. Fluctuations and variations are what give natural stone exclusive beauty. Thickness tolerance may vary +/- 1/4".
